

NO LIMITS

THE CAMPAIGN FOR CHILDHOOD DISABILITY

Madelene

Thanks to you, we have reached our goal!

Message from the President & CEO and the Chair

In 2008, Holland Bloorview Kids Rehabilitation Hospital Foundation launched the \$80 million *No Limits Campaign for Childhood Disability* to ensure there are always funds available to do more and do better for children with disabilities.

Through *No Limits*, you helped the hospital recruit the talent it needs, educate the next generation of health leaders, support families in every way possible and push the boundaries of research. We wanted to show kids with disabilities and their families that there are no limits to what they can achieve.

You answered our call – over the past eight years your contributions helped us reach our \$80 million target, which is simply remarkable! The profound impact of this campaign has been felt across our services, which in turn has made such a difference in the lives of kids with disabilities.

With such an exceptional achievement, we wanted to look back and share with you just what this campaign has meant to the kids at Holland Bloorview and introduce you to some of the amazing donors who made it possible, launching with The Holland Family's transformational gift and Bill Holland's visionary leadership.

With Bill's support, *No Limits* quickly became a total team effort. Our Board Members provided hands-on support. The leadership of former Holland Bloorview Foundation CEOs, Tracey Bailey and Valerie McMurtry, were instrumental in this campaign's success. And add to this the outstanding care of staff and volunteers, paired with the boundless generosity of donors like you, and it is no surprise that *No Limits* succeeded.

Looking ahead, we are excited to build on the momentum generated by the successful *No Limits* campaign. This year promises many new initiatives for Holland Bloorview Foundation and we have never been more committed to creating a world of possibility for kids with disabilities.

When we work together, there really are no limits to what kids with disabilities can do. This campaign is proof of that.

Sandra Hawken
President and CEO
Holland Bloorview Kids Rehabilitation Hospital Foundation

Jason Smith
Chair, Board of Directors
Holland Bloorview Kids Rehabilitation Hospital Foundation

You did this...

Your contributions to the *No Limits* campaign created our Centres that are transforming care and advancing promising research. That has translated into life-changing breakthroughs. Some kids communicated for the first time. Others took their first steps unassisted. Some took their first breaths without a ventilator. They made friends, discovered activities they love, laughed, played and focused on just being kids. Thank you for everything you have done.

Centre for Leadership in Innovation

Focuses on advancing novel ideas that impact clients and families, building organizational capacity and moving innovations to the broader community through knowledge sharing and commercialization.

Centre for Leadership in Participation and Inclusion

Focuses on research and development of comprehensive services leading to improved outcomes for children with disabilities and their families.

Teaching and Learning Institute

A leader in simulation-based education in pediatric rehabilitation, including the first simulation program in client and family centred care.

Cerebral Palsy Discovery Lab

Focuses on innovating and evaluating neurorehabilitation treatments for children and youth with cerebral palsy.

Centre for Leadership in Child Development

Supports interdisciplinary research and evaluation of interventions for children and youth with neurodevelopmental disorders including cerebral palsy, autism spectrum disorders, spina bifida, neuromuscular disorders and more.

Autism Research Centre

Improving outcomes and quality of life for children with autism spectrum disorders and their families through research.

Concussion Centre

Focuses on getting kids back to doing what they love after sustaining a concussion, including recreational and competitive sports, through education, research and clinical services.

Centre for Leadership in Acquired Brain Injury

Supports the establishment of evidence-based rehabilitative care that promotes post-injury quality of life for children, families and communities.

“ We hope this gift will improve the quality of life for all kids with disabilities and that it also enhances the understanding of autism through research. ” – Dianne Richards

The Ethel V. Leaver Foundation donated \$3.5 million to Holland Bloorview, including \$1 million designated for a new Chair in autism.

“ Our daughter thrived during this week-long camp and we knew it provided families with the peace of knowing their campers were in an enjoyable, artistic environment. We wanted other families to benefit the way we did. ” – Vito Bigioni

Vito Bigioni raised \$1.2 million for the SmartCentres Creative Arts March Break Respite Camp.

No Limits leaves no doubt

The *No Limits* campaign wrapped up this spring and you, our donors, allowed us to reach our goal of \$80 million dollars since its inception in 2008.

During that span, so much has advanced in care and research at Holland Bloorview, which in turn has translated into transformative changes in our kids and their families who took enormous steps forward in their recovery, abilities and outlook.

Beginning with a \$20 million endowment from The Holland Family, donors like you were integral partners in this campaign's success that provided both immediate funding to launch new strategic initiatives, as well as funding to support long-term strategies and programs that will have a dramatic impact in the future.

This campaign has led to exciting new research in autism, with Holland Bloorview conducting the first drug trials for autism in the country.

We are taking the lead in revolutionizing traditional and virtual reality therapies for kids with cerebral palsy by using new brain imaging techniques to evaluate their effectiveness.

We are developing innovative technologies that give a voice to non-verbal children with disabilities who are now well on their way to communicating independently with their families and friends.

We are continually revamping our Family Resource Centre to provide the best services and information on childhood disability to all of our families.

None of this could have been possible without your support, your generosity and your passion for improving the lives of kids with disabilities and their families. Your kindness reinforced that there really are no limits to what can be achieved.

Jason

Thank you to our leadership

The *No Limits Campaign for Childhood Disability* would not have succeeded without the guidance, expertise and vision of extraordinary leaders and thinkers who recognized the campaign's potential impact and influence. We are grateful to them and to all of the outstanding donors and friends who, through *No Limits*, helped kids with disabilities experience life-changing breakthroughs, moments and memories.

“ We’re proud to support Holland Bloorview. Kids with disabilities deserve the very best in innovative technologies and treatments, helpful family resources and leading-edge teaching and learning tools. ” – Bill Holland
The Holland Family is a true champion of childhood disability in Canada.

Recognizing distinguished donors

The WB Family Foundation donated over \$2 million to The Infinity Centre for Access Innovations.

The Steele Family donated \$525,000 to support education and research initiatives in honour of Mrs. Barbara Steele.

“ We know the importance of retaining young scientists to build on Holland Bloorview’s reputation as a childhood disability research leader. ” – James and Mary Davie
James and Mary Davie fostered the next generation of childhood disability scientists.

“ Children are our future and ensuring their safe return to sports and other activities from injuries, such as concussion, is of the utmost importance. ”
– Bob Redinger, President, Trillium Automobile Dealers Association (TADA)
TADA donated \$1 million to Holland Bloorview’s Concussion Centre.

The Ward Family Foundation gave \$625,000 to Holland Bloorview, allowing it to launch the Pursuit Awards to recognize outstanding achievements of PhD students in childhood disability research.

Richard and Marilyn Coles have donated more than \$280,000 to help kids with disabilities reach their full potential.

Note: Full donor lists are available online at hollandbloorviewfoundation.ca

We are grateful to the following financial institutions for investing in the health and well-being of kids with disabilities.

Celebrating our celebrity donors

“Through The Milos Raonic Kids Agility Clinic and the Igniting Fitness Possibilities program, I want to help as many kids as I can get active and healthy.”

– Milos Raonic

Milos Raonic Foundation is helping kids with disabilities get active.

MLSE Foundation helped kids with disabilities get into the game through Busy Bodies.

Holland Bloorview welcomed various Toronto FC players.

Jays Care Foundation hit a home run in their support of Holland Bloorview's life skills and education programs.

Brett Cecil visited Holland Bloorview.

Holland Bloorview Champions inspire us! Through their passion and commitment to making a difference, our Champions help us change the world for children with disabilities. Whether their contribution has been a single donation or legacy gift, a community event or the culmination of years of support, we at Holland Bloorview Kids Rehabilitation Hospital Foundation are honoured to recognize their extraordinary commitment.

IMPACT Matching Campaign

Committed to making a positive impact on the lives of kids with disabilities, Holland Bloorview Kids Rehabilitation Hospital Foundation launched its IMPACT Matching Campaign this spring. Three donors have generously agreed to match up to \$2.3 million in donations from the public, generating a possible \$4.6 million for kids with disabilities.

By giving to the IMPACT Matching Campaign, every donor's gift will be doubled to support Holland Bloorview's Impact Fund, which makes the following programs and services possible:

Transition to Adulthood: a new strategy to transform the journey to adulthood for kids with disabilities by breaking through barriers and developing new partnerships and programs.

Client and Family Centred Care Programs: including BLOOM, which provides information about caring for kids with special needs, and the Therapeutic Clown Program, which helps kids with pain management and provides warmth and laughter to clients, families and staff.

The Family Support Fund: financial aid for families of kids with special needs, including funds for special equipment, transportation and medications.

Music, Arts, Life Skills and Respite Services: programming that lets kids be expressive, creative and independent.

Centres for Leadership: through the integration of clinical, research and education initiatives, these Centres for Leadership advance care every day for kids with disabilities.

Jessica

Casey

Through the IMPACT Matching Campaign, and the support of our generous donors, The Coriat Family, The Slight Family Foundation and La Fondation Emmanuelle Gattuso, Holland Bloorview is creating a world of possibilities for kids with disabilities and will help them move forward with confidence, independence and pride.

“ We are proud to support The Infinity Centre for Access Innovations at Holland Bloorview Kids Rehabilitation Hospital. ”

– Andrew and Brigette Chang

The Raymond Chang Foundation is helping kids be heard for the first time.

“ We've seen first-hand the impact Holland Bloorview can have on a child's life – that is why we're proud to support this IMPACT Matching Campaign. ”

– David Coriat

David and Lynn Coriat's daughter, once a client, now volunteers at Holland Bloorview.

No Limits campaign

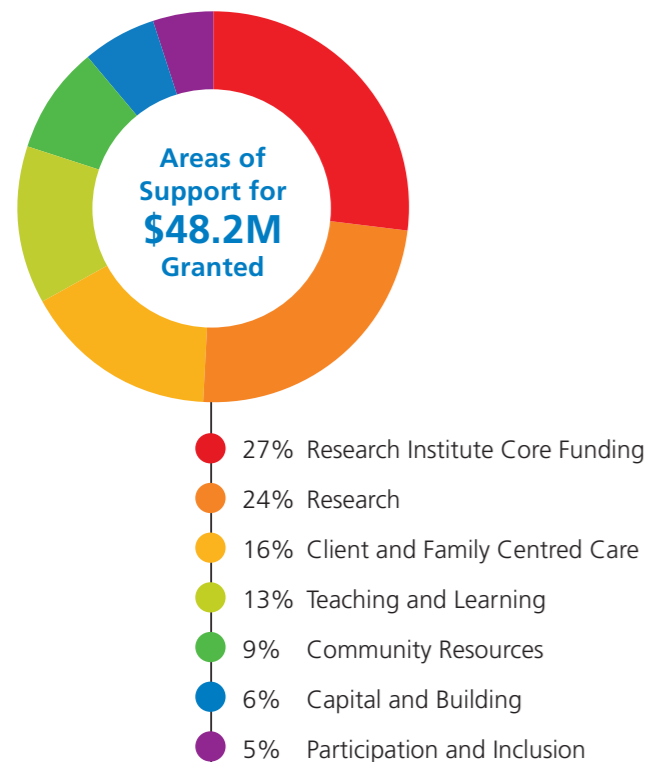

Financial highlights

2008-2016

The *No Limits Campaign for Childhood Disability*, funded by you, supported the development of new technologies that help kids speak, walk and play; improved patient care through new treatments and innovative research; expanded specialized camps and recreation programs; and so much more. It also enabled the development of emerging clinical therapies for kids with autism and ground-breaking education materials and treatments in the world of pediatric concussion. Donations also provided respite and financial support to families in need.

Growth in endowment fund:	\$80.6M
Amalgamation of Foundations (2009)	\$29.8M
Endowed donations to the campaign	\$29.7M
<ul style="list-style-type: none"> • 2 new Chairs • 11 new endowment funds 	
Investment income net of distributions to Holland Bloorview	\$21.1M

Funds granted during campaign:

For a copy of the audited financial statements, please visit hollandbloorviewfoundation.ca or call 416-424-3809.

“It’s inspiring to see Holland Bloorview developing personalized technology to enable children to communicate independently with their families and friends. This is hope-giving, life-changing research.” – Gail MacNaughton

John and Gail MacNaughton have supported the Infinity Centre for Access Innovations.

Pixie and David Riddle’s pledge of \$1 million from British Columbia is helping kids with disabilities across Canada.

Longtime donor, **Ron Kimel**, helped create a world of possibility by giving to the campaign.

Paul Perrow donated \$500,000 to ensure kids with disabilities get the tools they need.

Jean and George Oughtred’s \$1 million donation was an incredible Christmas gift in 2010.

Thanks to all of our donors for proving there are *No Limits!*
