SNOEZELEN WORKSHOP CONTENT

Can be modified on request and based on group's learning needs

1. Introduction to Snoezelen: origins & applications

- How did it start; Snoezelen philosophy
- Snoezelen in the various applications

2. Putting the “sense” in sensory

- Discussion of sensory processing and sensory diets

3. The role of the facilitator in the room

- How to set a client up for success

4. Putting snoezelen into practice: how to use the room with a client

- Assessment: Intake, during snoezelen session, post-session
- What to look for: indicators of client engagement/disengagement

5. Activities in the snoezelen environment

- How to use the equipment in the room *(only applicable if actual room is available)*

6. How re-create Snoezelen at home – creating a sensory space

- Ideas around equipment, recommendations, real life examples of sensory spaces on a limited budget

**This can be developed as a stand alone workshop on its own.*

7. Research highlights and sharing of experiences

- What's out there in snoezelen/Multi-sensory environment (MSE) research
- Participant experiences
