Are you a youth or young adult with autism spectrum disorder (ASD)?

Consider participating as part of a larger study about youth with disabilities' experiences in looking for work or being employed.

What is this study about?

We want to understand your experiences looking for work or being employed. Specifically, we want to understand your experiences with coping in a competitive work environment. In addition, we want to learn about disability disclosure and how youth with disabilities ask for accommodations in the workplace.

Who can participate?

We are looking for:

- Youth with autism spectrum disorder (ASD), ages 15-30
- Able to speak in English
- Currently employed or have work experience

What's involved?

Participants will be asked to take part in:

- 1 interview (approx. 1 hour) over the phone or over Zoom video communications

What are the risks and benefits of participating?

- A benefit of participating includes helping us to learn about disclosure and accommodation processes to better meet the needs of youth with disabilities.
- You will receive a gift card for participating

We can also offer volunteer hours for participants
