

Holland Bloorview's Family Engagement in Research Framework

Vision

Research at Holland Bloorview will be informed and co-designed by children, youth and families in collaboration with researchers and staff.

Objective

To enable family engagement in all aspects of the research process from conceptualization to dissemination of results.

Guiding Principles

Transparency
Co-Design
Support
Inclusiveness
Mutual Respect

Driven by...

- Holland Bloorview's culture of co-creating with children, youth, families and alumni
- Guidance from the Research Family Engagement Committee (RFEC)
- Ethical guidelines for partnering with clients and families in research
- Up to date, evidence-based best practices, guiding principles and research
- Continuous and rigorous monitoring and evaluation
- Constant communication and consultation with the research community
