

AAC & Wait Time:

You've got to give them time to...

Process

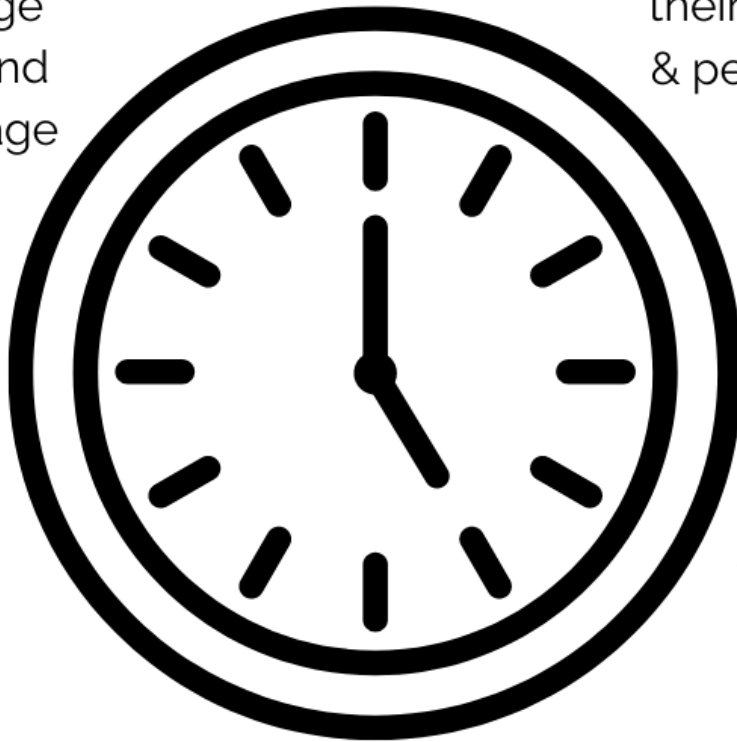

what was said

Consider

their thoughts
& perspective

Select language
on their AAC and
play the message

Organize their
body to access
the AAC system

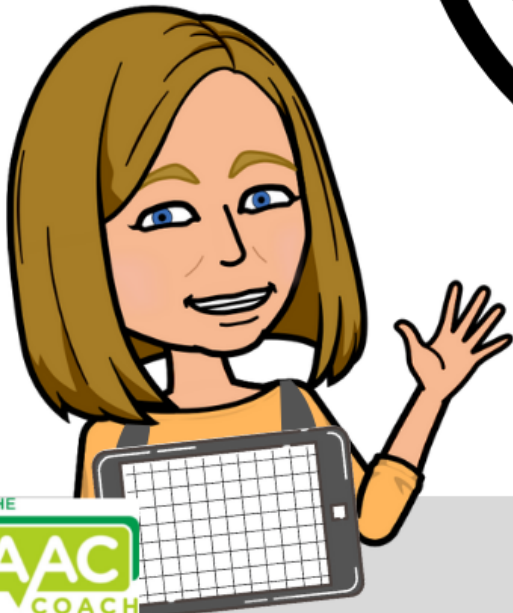

Shift attention
to & from other
thoughts or stimuli
in the environment

Consider if it's
worth the effort
to respond

Consider where
needed language is
in the AAC system

Formulate a
response in
their head

Especially if you started the conversation!
