There is a strong focus on core stability, correct form, co-ordination, muscle lengthening and control, taking into consideration mobility and ability.</li> <li>Exercises will build from gentle to more intense utilizing full range of motion. Water resistance will be used to challenge and tone muscle groups, improve joint flexibility and build endurance while eliminating impact and strain on muscles, tendons and joints. Various tempos, range of motion, hand/leg positions will be used to modify movement intensity. Exercises will be performed vertical, horizontal and on the diagonal.</li> <li>The class is appropriate for persons who need to exercise in warm water (ex: arthritis, knee or hip replacement, back conditions, shoulder injuries, stroke and heart recovery, muscle injuries and other mobility limitations but not suitable for persons with respiratory conditions). For safety reasons, all exercises are conducted at an appropriate level for the</li> </ul> |

| <ul> <li>Bone and Joint Fix</li> <li>Bring a bottle of water to all classes</li> <li>Shallow water only</li> </ul>                                          | <ul> <li>Your bones and joints might be achy, but without exercise you are at a higher risk for osteoporosis &amp; falls.</li> <li>Let's get moving in a warm water movement class to help fix those bones and joints. Moving through a shallow water pool will improves your balance; strengthen your muscles &amp; bones.</li> <li>Healthy bones need strong muscles pulling on them.</li> </ul>                                                          |
