

BOARD OF DIRECTORS MATRIX 2024-2025

Context: The matrix is used by the Governance Committee to ensure that the overall Board composition reflects the knowledge, experience, background and perspectives required to meet the Board’s fiduciary obligations, statutory obligations under the Public Hospitals Act and its regulations, help lead the hospital to achieving its mission, vision and values and deliver the highest quality care to clients and families. In addition, the Governance Committee seeks out attributes in Directors that build a healthy Board culture. These include: trust and respect; independence and integrity; openness and transparency; accountability; and action orientation. Questions under the “life experience” category reflect our commitment to valuing lived experiences, diversity, truth and reconciliation, and creating a culture of inclusion. Responding to these questions is optional but strongly preferred. The completed matrix is a confidential document for the use of the Governance Committee exclusively.

Instructions: We ask that all Directors and prospective Directors fill out the matrix. In providing answers do not hesitate to elaborate in the space provided. If you have any questions please contact Helen Hayward, Chair of the Governance Committee, Julia Hanigsberg, President and CEO or Cherrell Williams, Senior Executive Assistant and Governance Lead.

	Definition	Advanced formal certification or demonstrated knowledge (10+ years)	Intermediate Above average knowledge (5-10 years)	Basic General or modest knowledge	Top 3 (v) Please indicate no more than three strongest areas
