

EMAIL OR LETTER

Dear [Teacher's/Principal's Name],

I want to share information about resources that are now available to schools at no cost from Holland Bloorview Kids Rehabilitation Hospital.

The resources are about fostering inclusion of all students, in and out of the classroom.

Visit the [School Inclusion Hub](#) to learn more. Here's a summary:

Educator inclusion resources

- Learn about resources like **Project Inclusion**, online modules co-created with educators that explore inclusion through the lived experiences of students, family members, and educators.
- Access live **Inclusion Sessions** - available in-person in the GTA and virtually to other areas of the province. These sessions can be geared to student and staff needs.

Inclusion backpack

- Explore a variety of tools that model inclusion for students, including activities and worksheets for the classroom.

Community inclusion resources

- Find information to promote inclusion in the community, including guidelines for creating inclusive playgrounds.

Share your inclusion resolution

- Download templates you can use to share your personal inclusion resolutions.
